This is more pointless than Pain Train. How dare you.. Stock asset zombie survival "game." There really isn't anything more to say, other than The Last Mission doesn't even seem to have been tested!

To be honest, there was a period of time I felt that The Last Mission must have been a class project that just got put up for a dollar, but, on further reflection, a school project would probably have been better than this.

Just don't buy this.. VERY GOOD GAME PLS BUY OR YOU HAVENT PLAYED THE BEST GAME EVER CREATED. The Last Mission is your typical indie FPS made with Unity and featuring endless waves of zombies...

Verdict: Feels like an improved version of The Slaughtering Grounds but that's not saying much...
